Powerful Stylish 8LED Accelerator Light

Use to enhance teeth whitening process. The light comes with built-in mouth tray, no need moldable. Accelerate the results with FUREIN SMILE whitening gel, it also used to accelerate the whitening process when using with gel pen, strips. The Light on its own will not make your teeth whiter, However, it will accelerate the whitening gel, causing it to react quicker when breaking through tough to fight stains.

Batteries included

- You need to remove the battery insulator strips before use.
- 2x 3v lithium button batteries, use for up to 24 hours.

INSTRUCTIONS

1. Open the back of the LED light and remove the plastic tab below the batteries. Rinse the mouth tray with warm water, and then fill the front surface of the mouth tray on both the top and bottom with 0.5 ml of gel. Insert the light with tray into your mouth and place firmly over your teeth.
2. Press the power button to turn on the light and whiten your teeth for 25-30 minutes.
3. When finished, rinse the mouth tray and your mouth. Store gel in a cool, dry place. Avoid eating or drinking staining foods or beverages for 1 hour.
4. For better results, use the teeth charcoal powder to brush your teeth. Wet toothbrush and dip the bristles into powder. Gently brush for two to three minutes then rinse thoroughly. (TIPS: The charcoal powder is 100% natural and tasteless, you can use with your normal toothpaste.)
